- Tie down slots for plywood or rolled goods
- Diamond tread foot plate and belt guard
- Lifts up to 250 lbs.
- Reaches up to 28' off the ground
- Foot pedal and handle brake controls
- Product weight: 300 lbs.

The TP250 TranzSporter by Tie Down Safety is a ladder hoist that lifts shingles and other materials quickly and safely. The TP250 hoists up to 250 lbs. at one time and can reach up to 44 feet. With its designed durability, the TranzSporter is a market leader and best in class product. The TranzSporter ladder hoist, sometimes called a laddervator, lifts hingles to the roof while eliminating the dangers of workers lifting by hand. The hoist and track section assembly easily and offer ease of use. The foot pedal and handle brake controls allow for easy and straightforward use while keeping workers safe with the safety mechanisms preventing falls. An optional 4' or 8' track extension can be added to the ladder hoist, allowing a maximum height of 44'.

The TP250 TranzSporter makes for an ideal ladder hoist for moving shingles, felt, insulation, and other materials to the hard-to-reach areas. The new collapsible carriage comes with cam followers for better tracking. The carriage features an aluminum deck and flap for lightweight durability. The rolled goods bracket fits pins into the carriage. The TranzSporter comes in 3 different motors: Lifan gas engine, Honda gas engine, or electric motor. The solar panel saddle carriage accessory lifts solar panels without damaging the panels or the roof. Tie Down Safety maintains high standards and quality controls using quality raw materials and component parts made in the USA.
